Sensenbrenner Hospital is proud to be an Equal Opportunity Employer. We welcome and encourage applications from all qualified individuals including women, indigenous peoples, persons with disabilities, and members of visible minorities. Accessibility accommodations are available upon request to ensure support throughout the recruitment process, employee onboarding, and employment experience. Please do not hesitate to ask should you require any accommodations

Key Responsibilities

- Administer respiratory therapy treatments and procedures as prescribed by physicians.
- Assess patients' respiratory conditions and respond to changes in their clinical status.
- Operate and maintain respiratory therapy equipment, including ventilators, oxygen therapy devices, and nebulizers.
- Monitor and record patient responses to therapy and adjust treatment plans accordingly.
- Educate patients and families on respiratory care and equipment usage.
- Perform diagnostic tests such as arterial blood gases, spirometry, and pulmonary function tests.
- Collaborate with physicians, nurses, and other healthcare professionals to develop and implement patient care plans.
- Ensure compliance with hospital policies, procedures, and regulatory standards.
- Participate in emergency code situations and provide airway management.

Qualifications

- Diploma in Respiratory Therapy from an accredited program.
- Current licensure as a Respiratory Therapist in the province of Ontario.
- Registered Respiratory Therapist (RRT) certification preferred.
- Basic Life Support (BLS) certification required;
- Advanced Cardiac Life Support (ACLS) preferred.
- Strong clinical assessment and critical thinking skills.
- Ability to work independently and collaboratively in a fast-paced environment.
- Excellent communication and interpersonal skills.
- Previous experience in acute care or hospital setting preferred.
- Ability to provide services in English and French preferred.
